#### A WOMAN'S CLUBHOUSE.

THE TWENTIETH CENTURY CLUB OF BUFFALO BUYS A HOME.

CHARLOTTE MULLIGAN, THE PRESIDENT, TELLS HOW THE WOMEN RAISED \$56,000

IN TWO WEEKS. The Twentieth Century Club, of Buffalo, opened its new clubhouse last evening. This club is composed exclusively of women, and the fact that it is the first woman's club in the country to establish itself, buy a home and run its affairs on the same lines on which men's clubs are run, entitles it to attention. Charlotte Mulligan, writer and musical director. is the president and the motor that supplies the force and directs the affairs of this club of 25

"We wanted a home," said this energetic woman, "and the earnest work of our Board of Directors has won a home for us. We found a desirable piece of property in an old Baptist church that had been for sale a long time. Since a synagogue had been built next door to it it was not in demand as church property. The agent wanted \$30,000 for it. When I said the Twentieth Century Club would buy it he only laughed at me. But he gave me the refusal for two weeks. The Board of Directors met. We issued 750 shares of stock, at \$100 per share. In less than two weeks we had sold more than half of it. We paid cash for the property, and then we built a beautiful front and remodelled the old building; hence as the building stands it cost \$5,000. Our stock is nearly all owned by club members. We have beautiful clubrooms, which we rent to other women's clubs, and an auditorium from which we realize rentals. Any sance. It is seventy-eight feet wide and ninety-six same. It is seventy-eight feet who and hardy six feet deep. The main courtroom is of the Grecian Ionic style, thirty-five feet square, and contains twenty-five Ionic pillars, now of wood, but designed to be replaced by memorial pillars of marble. There are a handsome library room, a conversation room, a coffee room and an auditorium on the first floor. All the rooms are finished in white. There are kitchens, lavatories and every possible modern convenience. These Buffalo women employ no female service about their building. They think that mais service is superior, in that it is more trustworthy and amenable. The Twentieth Century Club claims to lead also in entertaining male friends. Any club member can bring a male guest into the club for luncheon or conversation. He cannot, however, remain after his hostess has departed. He may receive as many courtesies as women receive at men's clubs, and perhaps more.

"We never do anything here we are ashamed of," said the energetic president, "and that's more than the men can say for their clubs."

Miss Mulligan is the founder and president of a literary club called The Scribblers, and is also leader of the finest orchestra in Buffalo. The Twentieth Century Club is entirely independent, and is not allied to the Federation of Women's Clubs. It's business is the promotion of art and general culture. The only New-York club which approaches it is

#### A PROSPEROUS GUILD.

The name and fame of the Needlework Guild have become world-wide, and many poor men and sick women, as well as little children, remember In gratitude the loving hands of the women all over the land who have provided the warm flannels and shoes and stockings which have helped them through the hard, cold winters. Ever since the Guild was started in 1885 in this country it has met with great success, and now there are

has met with great success, and now there are branches of it all over the country that yearly provide such clothing as makes the winter season more bearable for the poor. The clothing given must all be new; no old or worn garments whatever are accepted.

At the annual meetings of the different branches in the fall the clothing is voted away to whatever charity or charitles the directors may agree upon. At the last meeting of the women's organization, held in Mount Vernon, there were exhibited 719 garments that had been made and collected during the summer. Shoes, stockings, dresses, hats, underclothing and all the necessary garments for comfort for men, women and children had been donated. Clothing was voted to many of the different charities in New-York, the Home for the Friendless and the Baby-Fold among others, and gifts were also made to the local charities.

Each director may suggest an appropriation for some charity in which she is specially interested, and if the other directors are agreed she secures a gift for it.

#### NEWS OF THE SCHOOLS.

The local Board of Education at Conshohocken will enforce the Compulsory Education Act, which will become a law on February 1, 1897. Guardians and parents will receive three months' notice, after which children between the ages of six and fourteen will be placed in restraint if found on the streets with no good excuse. The citizens generally approve the law.

Statistics having demonstrated the fact that illiteracy is on the increase in Pennsylvania, the Teachers' Institute in recent session in Reading unani mously adopted a resolution in favor of enforcing the Compulsory School law, as the only effective measure of preventing further degeneracy in the matter, Should that prove ineffectual, a more stringent enact-ment is urged.

will last as long as the party." Mr. Halpin was followed by B. B. Tagliaferro, whose wife is corresponding secretary of the Aux-iliary, and John D. Blackburn. Both commended the work of the women in the strongest terms at their command, and Mr. Tagliaferro concluded by

calling for "three cheers for the ladies."

The club then proceeded with its regular programme, and the men remained to hear the paper which was read by Mrs. John M. Peil. The subject was "Political Parties," and the writer gave a clear and concise history of the two parties now own as Republican and Democratic.

The discussion which followed was participated a by members of both clubs, and resulted in Mrs. Kirkwood getting into an animated though per-fectly amicable dispute with Mr. Halpin.

Mrs. Kirkwood, in referring to the work of the women in the slums, said that she thought the Republican party had presumed too much on the elligence of the people. It had preached protection and sound money, without explaining any

the tection and sound money, without explaining anything, and then wondered that there were free traders and silverites. Her experience was that people were willing enough to adopt Republican principles when they were explained to them.

Mr. Halpin maintained that the party had done everything that could be done for the political education of the people, and that they were incapable of learning.

Mis. Kirkwood answered that the Republicans did not begin work soon enough; people were familiar with Bryan literature long before they had any opportunity to study the other side, and if they could be taught Bryanism, she did not see why they could not be taught Republicanism.

"They learned Bryanism," betorted Mr. Halpin, "because their tendencies were all in that direction. No argument can stand against those tendencies, and that is why Mr. Bryan took the position he did. The only way to teach them Republicanism is by taking advantage of some other passion, and that will require a decade or two."

Mrs. Kirkwood admitted that there might be some reason in this, but said she was not in the least convinced, although she was going to be generous and let Mr. Halpin have the last word.

After the discussion the men retired, and as they passed our Mrs. Kirkwood and Mr. Halpin shook hands under the flag, which the latter was carrying.

Instead of the regular meeting next week the Auxiliary will have a social meeting, with music, recitations and refreshments. The members of the Chelsea Republican Club have been invited to be present, and every one clse will be welcome.

Ars. Kirkwood spent the entire morning yesterday in decerating her house in honor of the Republican victory. The front of the third story could scarcely be seen for flags, when she had mished; on the second bunting was draped from window to window, and on the ground floor there were pictures of McKinley and Uncle Sam on one side, and on the other the words "McKinley, Sound Money and Presperity," with "Gold, Gold, Gold," beneath.

### MRS. LATHROP RECOVERING.

George Parsons Lathrop, daughter of Nathaniel Hawthorne, who has been lying ill with pneumonia, at No. 1 Scammel-st., for more than a week, is now on the road to recovery. The ninth and critical day of her illness has been passed in safety, and Dr. Miller, her physician, has pro-nounced her out of danger. Mrs. Lathrop's illness
